ASSISTANCE PROGRAM FOR CHILDREN

Children are the Future

All over the world there are children sleeping in streets, doorways and under cardboard boxes, surviving by eating leftover food, doing heavy manual labor, selling trinkets, begging and stealing. Children are the future of their country, and of the world. One step at a time they can be helped to believe in their ability to create a better life for themselves and their community.

Katmandu, Nepal

It is not our goal to change their spiritual beliefs, only to help them realize how wonderful and powerful they are and that they can make a difference.

Our assistance benefits organizations in Nepal, Peru, and Tanzania.
