

Don't Wait Until It's Too Late!

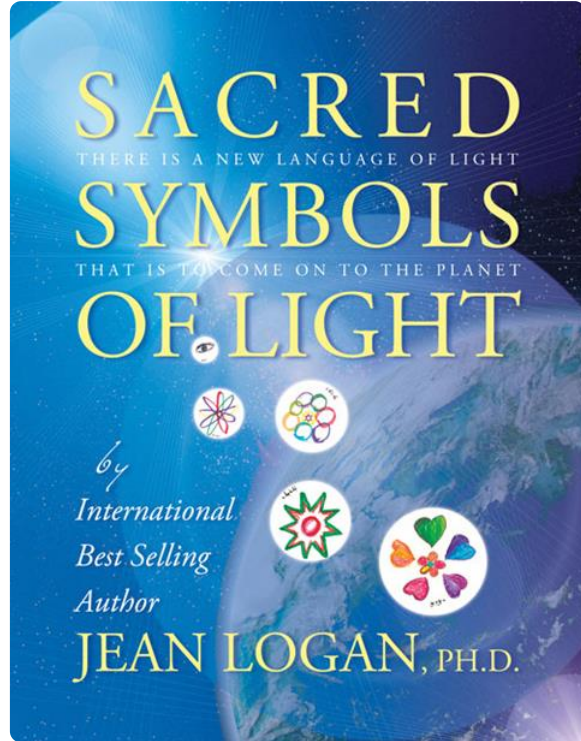

Glyphs for Prevention – Cancer, Heart Attack and More

The Heart glyph in *Sacred Symbols of Light* can actually prevent a heart attack and accompanying surgical procedures. This glyph can also resolve heart deformities in an adult or newborn baby, providing the condition is not part of the person's path. The glyphs in these healing manuals are tools. Tools only work if you use them. Once a heart attack occurs and you are laying there helpless on a gurney, it is too late. It's like a ball rolling down hill and the medicos will have their way.

Another great glyph for prevention or early resolution is the glyph for malignancies. This glyph can stop early cancer before it is even able to be diagnosed. The success of this glyph with advanced malignancies are dependent on such factors as how much damage has been done with toxic treatments and the willingness of the person to change their lifestyle. I would recommend every woman who owns a copy of this book to wear a strip of four of the glyphs in their bra for a few days. I would recommend that men over 40 years of age use this on their sacral chakra to stop early prostate cancer. There is no limit to where this glyph could be helpful.

BUY THE BOOK WITH THE HEART GLYPH TODAY!

Liver and Gallbladder Issues

Liver problems are epidemic and could easily be prevented by the use of the glyphs for parasites, detoxification and liver. Use of the glyph for the gallbladder and Detox II can help avoid the need for gallbladder surgery.

Stroke

The use of the Circulation glyph can help prevent a stroke and various other vein problems.

A close examination of the glyphs in these manuals will reveal other opportunities to heal or prevent issues before they become a serious problem.

The glyphs, however, should not be considered a substitute for a healthy diet and adequate exercise. These are your best insurance to leading a long and productive life along with a positive attitude of gratitude. These have been given to us by the Creator. Use them wisely.

"I occasionally have a rapid heart beat and labored breathing. One such episode really frightened me. ...I reached for the "Heart Healing and Support" glyph in book II. I placed the glyph over my heart, chanted the affirmation, and said some additional prayers... Fifteen minutes later I stood up feeling better than I had in weeks" - CAROL H.

"Recently I was experiencing pain in my gallbladder area...I used the Gallbladder and Bacteria glyph from Sacred Symbols of Light under my rib cage on the right side. For good measure I added the glyphs to resolve malignancy. I felt a strong reaction but was able to sleep through the night. The next morning I felt much better. I continued to use these glyphs and a week later I was fine. These glyphs never cease to amaze me." - J.W.
